- 3** Insights for routine and complex patients p. 06
- 4** Fast answers for matters of the heart p. 08
- 5** Expert second opinions p. 09
- 6** Screen without skipping a beat p. 10

Better medicine together.

Radiology, cardiology, specialty services, and more—everything we do is focused on helping you take swift, precise action to improve outcomes for your patients.

Knowing the estimated turnaround time before you submit your case to IDEXX Telemedicine Consultants helps you choose the best service and priority level for your patient.

Our sole focus is the patient.

We prioritize cases based on medical need, and you can help by choosing the case type that most accurately describes your patient's condition. This allows us to focus on helping all of our customers achieve the best outcomes for their patients. When submitting your radiology request on vetmedstat.com, you will be asked to select one of the following service types:

-  **Nonurgent:** Select this service type when a patient issue is not medically urgent (hip dysplasia screens, senior screens, chronic follow-ups, chronic lameness, etc.). Usually within 3 days.
-  **Routine:** Select this service type when a patient is sick or in the hospital and you need answers quickly (metastasis screen, metabolic disease assessment i.e. Cushings, diabetes, etc., chronic urinary cases). Usually within 1 day.
-  **Priority:** Select this service type when you need expedited answers (stable trauma patients, recent onset of coughing, recent onset of vomiting or diarrhea). Usually within a few hours.
-  **STAT:** For critical patients (heart failure, possible GI obstruction, unstable trauma, acute respiratory distress, urinary obstruction). Usually within 1 hour.

Note:

- Teleradiology services are in high demand, and turnaround times are impacted by demand fluctuations. Refer to vetmedstat.com for current turnaround times, and select the service type that best represents your patient's medical need. Refer to vetmedstat.com for weekend fees and service information.
- Some services may be unavailable during periods of high demand. Check VetMedStat for current service availability.

Radiology Services

Insights for routine and complex cases.

Our radiology consultants offer expert interpretations to help you improve patient health and maximize your investment in digital technology.

Small-animal services available 24/7/365

Radiology consults

A radiologist provides a detailed written interpretation of radiographs and/or ultrasound in conjunction with patient medical history.

-  Nonurgent
-  Routine
-  Priority
-  STAT

Note:

- Check vetmedstat.com for current turnaround times, service availability, and weekend pricing.

Advanced imaging consults

A radiologist provides a detailed written interpretation of an MRI or a CT in conjunction with patient medical history.

- ✔ **Routine:** Reports returned within 24 hours
- 🕒 **Priority:** Reports returned within 12 hours
- ★ **STAT:** Reports returned within 4 hours

Equine and large-animal services available Monday–Friday

Radiology consults

A radiologist provides a detailed written interpretation of the radiographs in conjunction with patient medical history.

- ✔ **Routine:** Reports returned within 48 hours

Advanced imaging consults

A radiologist provides a detailed written interpretation of an MRI or a CT in conjunction with patient medical history.

- ✔ **Routine:** Reports returned within 48 hours*

Prepurchase evaluation

Two radiologists review each exam and provide a detailed written interpretation of the radiographs in conjunction with patient medical history.

- ✔ **Routine:** Reports returned within 48 hours*

Note: Second opinions may incur an additional charge. Extended ultrasound studies will incur additional fees. Please refer to vetmedstat.com/telemedresources for ultrasound study definitions.

*Turnaround times may be longer during peak times. Additional fees may apply.

Adding IDEXX Telemedicine into the hospital's image capture workflow makes the hospital more efficient while increasing staff confidence.

Cardiology Services

Fast answers for matters of the heart.

From pre-op assessments to in-depth cardiology evaluations, we're ready with fast answers that are easy for you to put into action.

Service available

- Monday–Friday, 7:30 a.m.–11:00 p.m. ET;
- Saturday, 9:00 a.m.–6:00 p.m. ET;
- Sunday, Noon–4:00 p.m. ET

Cardiac consults

A cardiologist provides a detailed written assessment of a radiograph/echocardiogram/ECG in conjunction with patient medical history. The report provides diagnostic and therapeutic recommendations.

- 🕒 **Routine:** Reports returned within 8 hours
- ★ **STAT:** Reports returned within 1 hour

Cardiac screens

Brief assessments without therapeutic recommendations.

- 🕒 **ECG Screen:** Reports returned within 30 minutes*

*On average, ECG screens are returned in under 10 minutes.

Know the estimated case turnaround time before the hospital submits a case.

Specialty services

Expert second opinions.

Quick second opinions or treatment recommendations from a respected peer.

Services available Monday - Friday

Internist consults

An internist provides a detailed written treatment plan based on patient medical history, laboratory tests, and radiologist's interpretation. Abdominal ultrasound with interpretation is also available.

✔ **Routine:** Reports returned within 1–3 days

Dental consults

A dentist provides a detailed written interpretation of dental radiographs and/or photos in conjunction with patient medical history. Dental CT is also available.

✔ **Routine:** Reports returned within 24 hours

Dermatology consults

A dermatologist provides a detailed written interpretation based on a pathology report and/or photos in conjunction with patient medical history.

✔ **Routine:** Reports returned within 1–3 days

A guided submission process ensures our team has what they need to read the hospital's case, and integration with IDEXX PIMS via Web PACS increases efficiency.

Dermatology consults

A dermatologist provides a detailed written interpretation based on a pathology report and/or photos in conjunction with patient medical history.

🕒 **Routine:** Reports returned within 1–3 days

Exotic consults

This service is designed for all exotic or zoological species, including mammals, birds, reptiles, amphibians, invertebrates, and fish. A zoological medicine specialist provides a detailed written interpretation of radiographs, ultrasounds, pathology, or additional diagnostic modalities in conjunction with patient medical history. The report provides additional diagnostic options and therapeutic recommendations.

🕒 **Routine:** Reports returned within 24 hours

Support and onboarding is performed by a subject matter expert, available globally 24/7/365.

Screen without skipping a beat

CardioPet ECG Plans are the easy, fast, affordable way to identify potentially hard to detect arrhythmias.

Include an ECG screen for all patient wellness checkups, especially geriatric or high-risk breed visits. Capture and submit an ECG screen preoperatively to establish a baseline and check for potentially dangerous arrhythmias.

Instances of arrhythmias**

Routine ECG screens fit into your workflow with the CardioPet® ECG Device

- Capture ECGs in just 3 minutes.
- Review 6 leads at once on a single screen.
- Get results in under 10 minutes on average.*

CardioPet ECG Plans make routine ECG screens affordable

Plan name	ECGs per month	Cost per screen	CardioPet device included
Intro	5	\$23	No
Basic	10	\$18	Yes
Premium	20	\$14	Yes
Pro	40	\$11	Yes

*Times and prices may vary. Results guaranteed in under 30 minutes.

† Offer valid only for practices that have not yet purchased a CardioPet ECG Device. A 12-month commitment is required.

Note: Newly enrolled practices may earn two IDEXX Points for each case submitted. Each IDEXX Point is worth one dollar toward the purchase of any IDEXX product or service (no cash value). See idexx.com/points for terms and conditions. Charges for ECG screens performed over the monthly plan allotment will be assessed at the cost of an individual screen indicated in the plan contract.

Standard terms and conditions

Unless otherwise agreed in an agreement signed by IDEXX Laboratories, Inc. or one of its affiliates, all services that we provide you, including laboratory testing services, consulting services, data collection, analysis and interpretation, and other reference laboratory-related services, are governed only by our standard terms and conditions found at idexx.com/naterms. Your purchase or use of our services indicates your acceptance of these standard terms.

Notice to veterinarians

IDEXX Telemedicine Consultants provides consultation and interpretation services on a professional-to-professional basis. Without personally having made a physical examination of and conducted all tests on a patient, IDEXX veterinarians, in providing consultations and interpreting test results, rely on data communicated by you, the licensed primary care veterinarian. By providing consultations, IDEXX does not purport to diagnose or treat your patient. As with any diagnosis or treatment, you should use clinical discretion with each patient based on a complete evaluation of the patient, including history, physical presentation, and complete laboratory data. With respect to any drug therapy or monitoring program, you should refer to product inserts for a complete description of dosages, indications, interactions, and cautions. Diagnoses and treatment decisions are the ultimate responsibility of the primary care veterinarian.
