What's New in
IDEXX-PACS 4.2 Imaging Software

Updates and enhancements

New, improved database: The IDEXX-PACS* 4.2 Imaging Software includes newer database technology for improved performance.

IMPORTANT: When you upgrade your software, click **Install** if you see a prompt to install Microsoft* Visual C++* Redistributable Packages. Microsoft Visual C++ is needed for the MYSQL drivers used in the new database.

Specifications and Training

Statement of intended use

The IDEXX Diagnostic Imaging Systems are intended for veterinary use only; they are not intended for human diagnostic use. For a detailed list of species and settings, contact IDEXX Diagnostic Imaging Customer Support at 1-877-433-9948.

Operating system requirements

Operating system requirements are slightly different for computers used to capture images with IDEXX Diagnostic Imaging systems and computers used for viewing images and using other software features:

- When capturing images, use only computers that are supplied by IDEXX.

- When viewing images and using other features (except image capture), use a computer running the Windows* 7 Professional, Windows* 8, Windows* 10, or Windows* 2012 Server operating system.

The Patient CD can be used with home or business editions of Windows operating systems. The Patient CD is not compatible with the Mac* OS X* operating system.

Minimum hardware requirements

The computer used to run the IDEXX-PACS software must meet these minimum requirements:

- 2 GHz dual-core 32-bit processor
- 20 GB free space on hard drive
- 128 MB graphics card
- 2.0 GB RAM
- CD/DVD burner
- 100 MB Ethernet port

To capture images with IDEXX Diagnostic Imaging systems, use only computers provided by IDEXX.

Learning to use your IDEXX-PACS software

We've created interactive tutorials and short training snippets that are the next best thing to having an IDEXX representative by your side. Visit the Diagnostic Imaging Education and Training page or go to idexxlearningcenter.com and click Snippets or Tutorials.
