

IDEXX Reference Laboratories

Bone pathology consultants

Bone marrow specialists

Linda Berent*, DVM, PhD, DACVP

Clinical and Anatomic Pathologist

Area(s) of interest: cytology, hematology, bone marrow evaluation, dermatopathology, oncology

Dr. Berent received her DVM from the University of Illinois, where she also completed her residency in clinical pathology after 1 year of small-animal practice. She received board certification in clinical pathology in 2001 and anatomic pathology in 2006. She joined the faculty at the University of Missouri in 2002 as a clinical track faculty focused on diagnostic service and teaching. She joined IDEXX as a contractor in 2017.

Melissa Blauvelt, DVM, MS, DACVP

Clinical Pathologist

Area(s) of interest: bone marrow, flow cytometry

Dr. Blauvelt received her DVM from Oklahoma State University. She was in small-animal private practice for 3 years and then pursued a clinical pathology residency with the University of Minnesota. She has been working as a diagnostic clinical pathologist for 15 years and was delighted to join IDEXX in the summer of 2016. In her off hours, she enjoys taking care of her little farm and its two donkeys, two horses, and her timid dog Savannah.

Nariman Deravi, DVM, DACVP

Clinical Pathologist

Area(s) of interest: cytology, hematology, lymphoproliferative disorders, bone marrow evaluation

Dr. Deravi is a native of Mississauga, Ontario, and received his DVM from the Ontario Veterinary College in 2012. He spent 2 years in small-animal practice before pursuing a residency in clinical pathology at the University of Guelph, where he did research on canine T-cell lymphoma. He was board certified by the American College of Veterinary Pathologists in 2017 and began working for IDEXX the same year. In his spare time, Dr. Deravi enjoys spending time with his schnauzer mix Tillie and practicing stand-up comedy and improv. He tries his best to stay fit by doing Zumba and interval boxing. He is also a proud alumnus of the Omega Tau Sigma veterinary fraternity, actively contributing to the chapter during veterinary school and his residency.

Jamie L. Haddad*, VMD, DACVP

Anatomic and Clinical Pathologist

Area(s) of interest: bone marrow evaluation, diagnostic pathology

Dr. Haddad, a native New Yorker, received her veterinary degree from the University of Pennsylvania in 2007. She remained there for her anatomic pathology residency and then continued on to a clinical pathology residency at North Carolina State University. Dr. Haddad is board certified in both anatomic and clinical pathology by the American College of Veterinary Pathologists and is particularly interested in bone marrow evaluation, cytologic-histologic correlates, and specialty/referral center pathology cases. Dr. Haddad joined IDEXX in 2012 and spent her first several years with IDEXX in New York City on-site in a large specialty hospital and now continues to work for IDEXX in the northern Chicago suburbs. Outside of work, Dr. Haddad enjoys baking, running, and spending time with her family.

Michael Wiseman, DVM, MS, DACVP

Clinical Pathologist

Area(s) of interest: cytology, hematology/bone marrow

Dr. Wiseman received his DVM from the University of California, Davis, in 2001 and spent 6 years in small-animal general practice in San Francisco and Sydney, Australia, before focusing his detective skills on clinical pathology. He completed a combined residency and MS degree program at Colorado State University in 2010, with ACVP board certification the following year. Since 2011, he has been working as a clinical pathologist within large-scale veterinary reference laboratories in Irvine, California, and Melbourne, Australia. Dr. Wiseman joined IDEXX in 2017 at the Animal Medical Center in New York City. When not at the microscope, he enjoys cooking, fitness/yoga, being active outside, and travel.

Bone pathology consultants, *continued*

Musculoskeletal specialists

Geneviève Remmers, DVM, DACVP

Anatomic Pathologist

Area(s) of interest: bone pathology, immunohistochemistry, oral pathology, diagnostic pathology

Dr. Remmers received her DVM from the University of Montreal in 2008. Following graduation, she completed a residency in anatomic pathology at the University of Minnesota. Dr. Remmers attained American College of Veterinary Pathologists board certification in 2011. She is fluent in French and English and is able to provide anatomic pathology consults in both languages. Outside of veterinary medicine, Dr. Remmers enjoys cooking, hiking, and spending time with her son, Hugo; husband, David; and two dogs, Paco and Lucy.
