Improve production and performance.

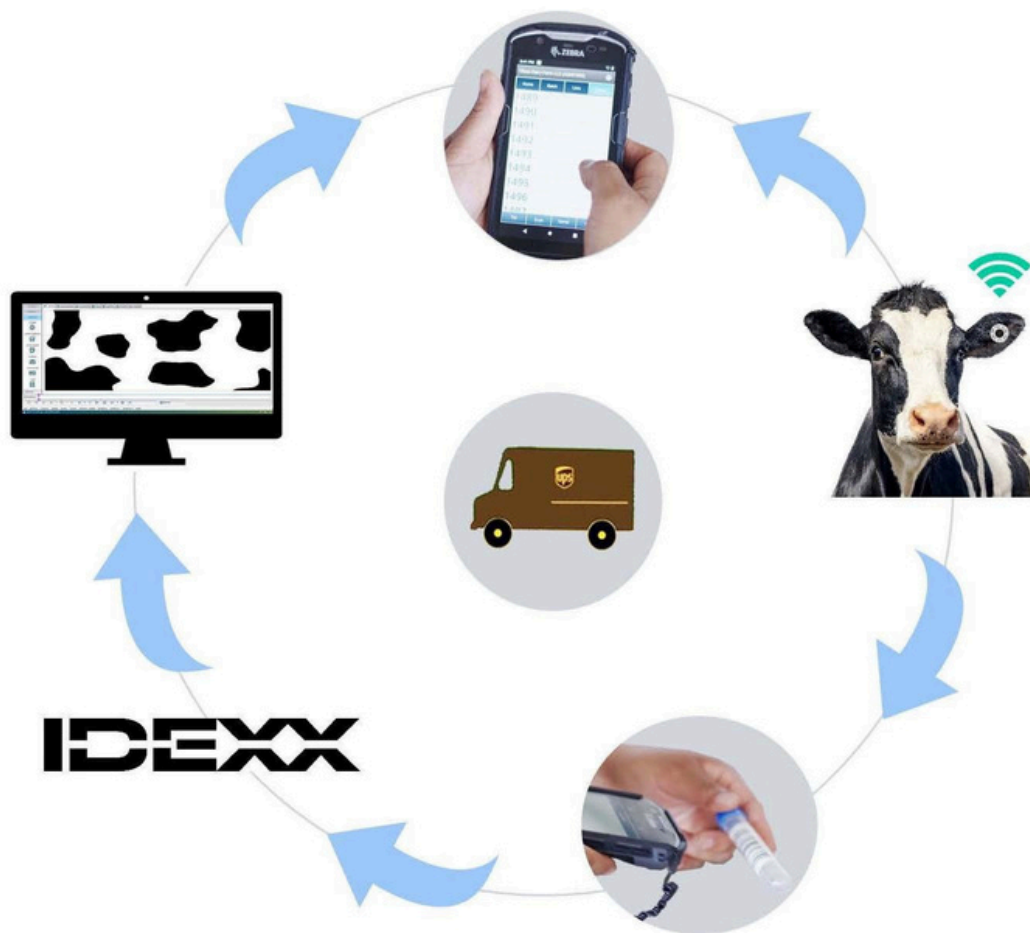

- + Reduce average days in milk.
- + Reduce average days open.
- + Unlock a potential 8.4 lbs. more milk per cow weekly.¹

“ I definitely recommend IDEXX Bovine Laboratory Services to other producers. It’s working really well—the technical service is excellent, the team is great, and we’ve seen outstanding results. Our pregnancy rate has increased by at least four to five points, strictly due to the Alertys testing.”

Designed to fit your workflow, not slow it down.

+ Increased efficiency and confidence—streamlined

scanning automatically matches each sample ID to the animal ID so that results are integrated directly in your farm management system.

+ Sample collection and shipping supplies easily available at idexx.com/order or by telephone.

+ Experienced experts you can rely on—a highly trained team of laboratory technicians, technical service professionals, and diagnostic consultants dedicated to providing accurate results and solutions for dairy and beef operations.

+ Comprehensive bovine testing menu to support informed herd decisions, including these:

- Alertys™ Milk Pregnancy Service (94-0015116-00)
- Alertys™ Blood Pregnancy Service (94-0015117-00)
- BVDV PI Service (94-0015119-00)*

*Serum and ear notch sample types accepted.

“Put the samples on UPS and the following day, we have results. It can't get much easier. Not only do we have the results, they are automatically entered in our herd management system. It doesn't even take any effort on our part to get that done.”
