

Before you can fight cancer, you have to find it.

Follow these simple steps to get started with IDEXX Cancer Dx™ testing today.

Step 1

Identify your IDEXX Cancer Dx test codes.

Consider your needs for both aid-in-diagnosis testing where canine lymphoma is suspected and as part of IDEXX Preventive Care profiles for at-risk dogs.* There are 4 ways you can find the right IDEXX Cancer Dx tests for you:

- + Visit the **VetConnect® PLUS website**.
First-time user? Activate your VetConnect PLUS account by calling 1-888-433-9987.
- + Access common **IDEXX Cancer Dx test codes**.
- + Access the **Online Directory of Tests and Services**.
- + Contact your **IDEXX Veterinary Diagnostic Consultant to discuss testing options and pricing**.

Step 2

Order your tests.

- + **Order your test from your IDEXX PIMS.**
(Click here for instructions to set up test codes in [Cornerstone®](#), [Neo®](#), and [ezyVet®](#) software.)
For questions about PIMS integration capabilities with IDEXX, please reach out to your Field Support Representative.†
- + **Order your test through VetConnect PLUS.**
First time doing this? Contact Reference Lab Customer Support by calling 1-888-433-9987.

Step 3

Send your test specimens to IDEXX Reference Laboratories.

- + If you are currently sending tests to IDEXX Reference Laboratories, follow your typical process for submitting test specimens and skip to step 4.
- + For immediate test submission today, contact IDEXX Customer and Technical Support by calling 1-888-433-9987. They will email you a shipping label for UPS® or FedEx® (contact FedEx or UPS directly to schedule a pickup or drop off the package at a FedEx or UPS location).
- + To learn about other specimen transportation options, please contact your IDEXX Veterinary Diagnostic Consultant.

Step 4

View your test results.

- + **VetConnect PLUS website or mobile app.**
To download the VetConnect PLUS mobile app, scan the QR code below.

 App Store

 Google Play

- + **Integrated PIMS.**

Step 5

Educate your pet owners.

People don't want to think about their pet having cancer. So we've created a range of materials to help your staff effectively and compassionately communicate the different options available to pet owners.
