Total visits include clinical and non-clinical visits. In 2021, there were an estimated 340 million U.S. total visits. Approximately 70% of estimated U.S. companion animal diagnostic sector revenue is from non-wellness visits.

Clinical visits are those where the reason for visit involves an interaction between a clinician and a pet.

Non-wellness visits include those for which the reason for visit is sickness, procedure or monitoring.

Wellness visits include those visits for which the reason for visit is an annual exam, vaccination, or routine check-up.

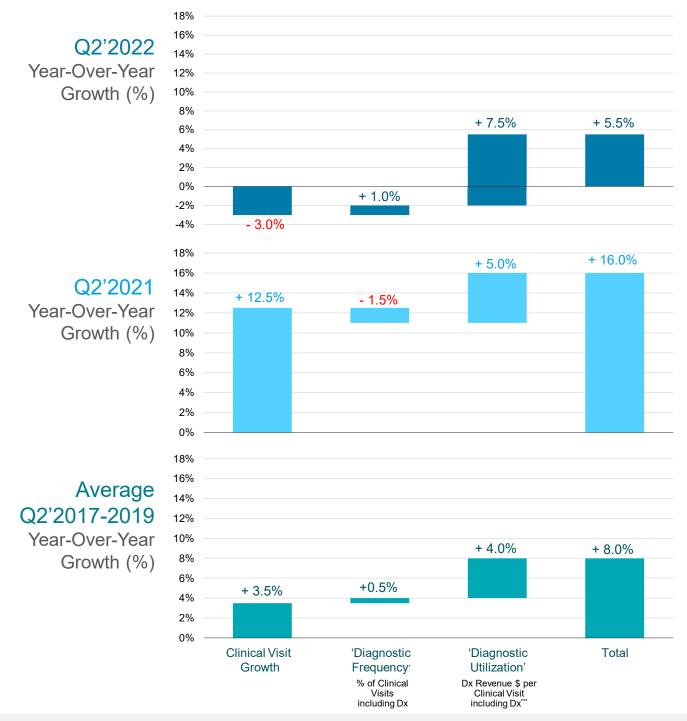

* Note that we estimate net new practice formation adds ~1% of incremental market growth per year beyond per practice growth.
