IDEXX inVue Dx Cellular Analyzer installation checklist

Pre-installation day

Set your team up for success before the IDEXX inVue Dx™ Cellular Analyzer arrives.

How to prepare your team.

- [ ] Coordinate schedules to get all technicians and doctors to training.
- [ ] Designate the technician who will be your team's lead person for onboarding.
- [ ] Designate the veterinarian who will be your medical lead person for onboarding.
- [ ] Verify all technicians have completed the free *IDEXX inVue Dx Certificate Course.*

  Scan the QR code to complete the course.
- [ ] Verify all veterinarians have watched the free video, *The Benefits of a Slide-Free Load-and-Go Analysis.*

  Scan the QR code to watch the video.
- [ ] Encourage your team to have samples (whole blood, ear swabs, and fine needle aspirates [FNAs]) from their own pets to use during training at no cost.

What we will work on together.

- [ ] Discuss IDEXX inVue Dx Perks, a program that rewards your team for using the new analyzer.*
- [ ] Determine protocols to encourage your team's consistent use of the new analyzer.
- [ ] Discuss factors to consider when setting pricing for client compliance, so you can determine your practice pricing.
- [ ] Set up your practice management system to reflect your protocols and pricing.

Installation day

Bring your team together for training and make the analyzer part of your daily workflow.

What we will do together.

- [ ] Give your team experience: your team can run IDEXX inVue Dx at no charge during training.
- [ ] Organize training materials and share the location with your team.
- [ ] Post the quick reference guides for IDEXX inVue Dx blood morphology, ear cytology, and FNA cytology, as well as the *Turning Blood Morphology into a Routine Part of Every CBC* and the *IDEXX inVue Dx Ear Cytology Image and Results Interpretation* guides.
- [ ] Make sure your team knows about the resources for blood morphology, ear cytology, and FNA cytology on idexx.com and the IDEXX Learning Center for deeper training.

Post-installation day

Your team is trained and ready to put the analyzer to work for patients.

How we can help you.

- [ ] Share your experience with us, so we can help you along the learning curve.
- [ ] Track cases of interest or questions for us.
