

## Microscope

10–20 minutes

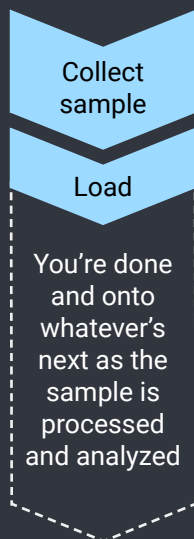

## Slide scanner

Results within a few hours. Up to next day for some sample types.

## IDEXX inVue Dx™ Cellular Analyzer

10 minutes

**Slide-free means you are free from subjectivity, inconsistency, and time-consuming prep.**

Compare each workflow.

Slide-free workflow ensures consistency and accuracy without the time-consuming process of making slides.

Subjectivity and inconsistencies are removed through automation and deep AI learning models providing objective results with quantitative diagnostic insights.

Ease of integration results in charges and images captured in records so they can be shared with owner.
