## Two ears. One report.

With the IDEXX inVue Dx<sup>™</sup> Cellular Analyzer, your report includes the left and right ear all from one run. Simplifying your workflow, and giving you more insights.

Objective, consistent, and reproducible:

- + Quantifies yeast and bacteria (rods and cocci)
- + Assesses for the presence of white blood cells
- + Assesses for the presence of mites

Image gallery supports the Al-assisted pathology findings.

**Diagnostic Considerations** built with board-certified dermatologist expertise guide real-time clinical decisions.
